

JOHN CARLO CREDO CASING

Mampirao, San Jose, Camarines Sur, Philippines
carlocasing05@gmail.com | +639511405421

Summary

Detail-oriented and adaptable Information Technology graduate with a strong passion for technology, problem-solving, and digital innovation. Capable of developing efficient and user-focused solutions while maintaining attention to functionality, usability, and design. Possesses strong analytical thinking, creativity, and adaptability, with the ability to learn new technologies quickly and work effectively in both independent and team-oriented environments. Dedicated to continuous improvement and committed to delivering quality results in fast-paced and dynamic settings.

Experience

Intern – Department of Agrarian Reform (DAR) Camarines Sur II February 2026 – May 2026

- Developed a **Data Management System** for the Department of Agrarian Reform (DAR) CamSur II to improve data organization and record management.
- Designed and implemented web system features using PHP, HTML, CSS, JavaScript, and MySQL.
- Created and managed database structures for efficient storage and retrieval of records.
- Conducted system testing, debugging, and user interface improvements to ensure system functionality and usability.
- Gathered system requirements and developed solutions based on organizational needs.

Skills

Technical Skills: PHP, JavaScript , HTML, CSS, C++, MySQL, Godot Engine.
Design & Creative: UI/UX Design, 3D Modeling (Blender), Adobe Photoshop, Figma, Canva.
Development Competencies: Web Development, System Development, Game Development, Database Management, Troubleshooting.

Projects

Design and Development of a Faculty Attendance Management System Using RFID (Capstone Project)

Technologies Used: C++, PHP, HTML, CSS, JavaScript, MySQL, RFID Technology

- Developed an RFID-based attendance monitoring system with website integration for efficient faculty attendance tracking.
- Implemented RFID hardware communication and attendance logging using C++ programming.
- Designed and developed the web application interface using PHP, HTML, CSS, and JavaScript.
- Created database management and report generation functionalities using MySQL.
- Improved attendance monitoring efficiency through automated RFID scanning and real-time data recording.

Data Management System – DAR Region II

Technologies Used: PHP, HTML, CSS, JavaScript, MySQL

- Developed a web-based system for organizing and managing records efficiently at the Department of Agrarian Reform CamSur II.
- Designed user-friendly interfaces and database functionalities for faster data processing and retrieval.
- Assisted in testing, debugging, and system enhancement during development.

Education

- Partido State University**
Bachelor of Science in Information Technology | 2022– 2026
 - Overall GWA: 1.66
 - 1stSem 2025-2026 Dean’s Lister
 - 1stSem 2024-2025 Dean’s Lister
- San Rafael National High School (Senior High School)**
Accountancy, Business and Management (ABM) | 2020-2022
 - With Honor
